ET-7B INTRODUCTION

ET-7B is a smart touch color screen thermostat that can be controlled simultaneously or separately with electric floor heating and towel rack. The towel rack can be set to work in different periods, and can also be opened or closed at any time according to user needs, and supports APP control. In addition, the thermostat supports horizontal and vertical screen switching to meet your different installation requirements.

ET-7B FUNCTION

- Auto/Manual/Anti-frozen mode
- Brightness adjustable.
- Weekly programmable 5+1+1/7 with 4-event per day
- Energy use
- Multilingual switching English/Chinese/Francais
- Horizontal and vertical screen
- Multiple sensor type compatible
- Open window detection
- Adaptive function APP remote access
- Room/Floor sensor selection
- Weather function
- Floor heating and towel rack
- OTA upgrade

You can select horizontal or vertical screen installation, with a reserved mounting hole. You can also set the display direction on the screen.

Using a 3.5-inch color touch screen, the display is clear and the operation is more convenient.

The network can be updated in real time to show the local weather conditions, so that you can reasonably adjust the temperature of the thermostat.

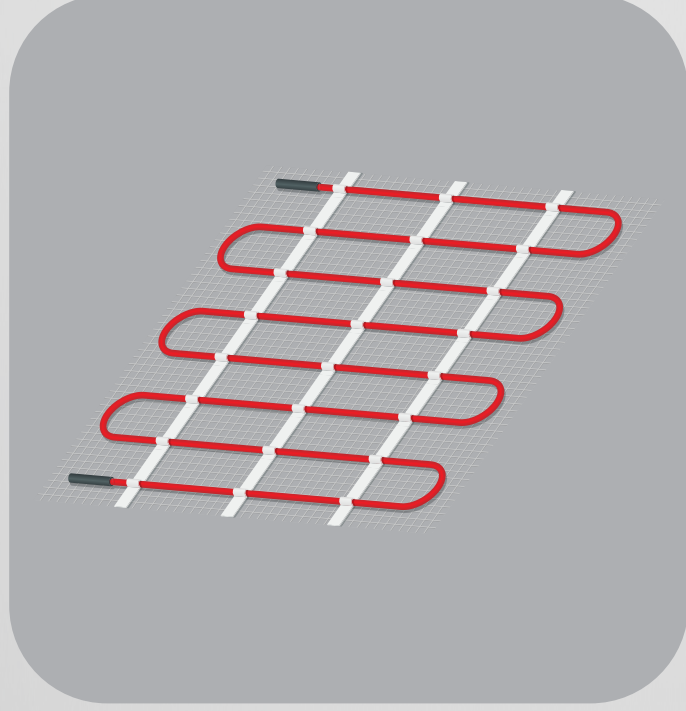

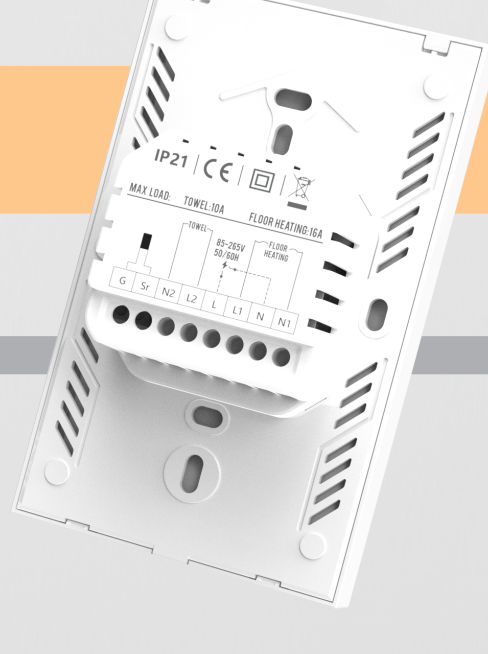

Configure 2.4+5Gwifi, support app remote control, and choose whether to add this configuration according to your needs.

Two control systems can control the switch signal of a towel rack while controlling the electric floor heating. You can choose to control it simultaneously or separately.

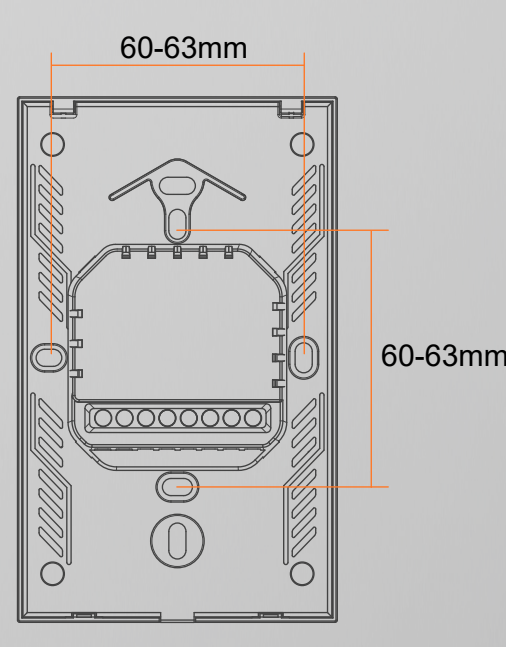

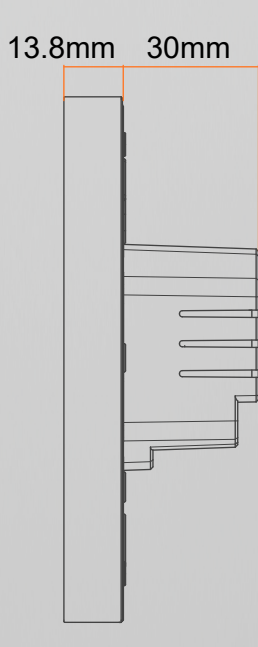

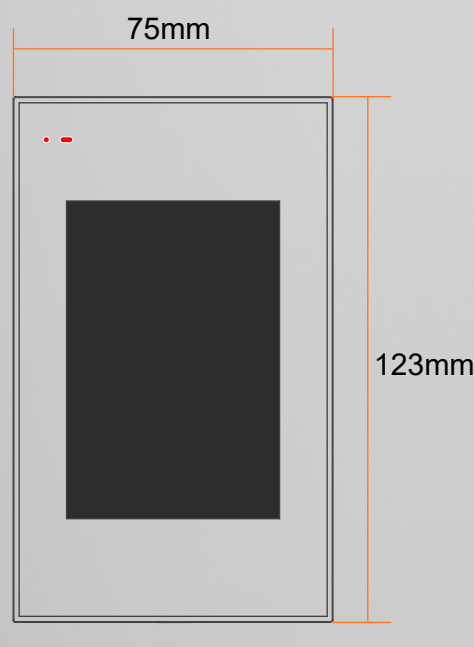

Support remote online upgrade, after networking, through the APP will accept the firmware upgrade notification, for the thermostat upgrade program.
